SERVICE VOLUMES

These are monitored internally by the individual service area and not reported on externally.

Description	Projected annual volume for 2026/2027	Estimated annual volume for 2027/28	Notes / explanation for estimated change
Completion of the Annual Residents' Survey	500	500	The 2026/27 Residents Survey follows a highly publicised LGR engagement survey, and will run for a shorter period than 2024/25/ This may have a negative impact on the number of completions – but is yet to be determined.
Total unique visits to website	292,500	313,000	<p>Improved communication across a broader range of channels is expected to reduce the need for audiences to access the website directly to obtain information. This supports the KPCX01 increasing subscriptions to GovDelivery newsletters.</p> <p>The planned introduction of live chat and chatbot functions over the next 18 months is also likely to influence visitor behavior. In parallel with these developments, continued monitoring of the website's bounce rate is recommended. The current bounce rate is 43.03%; by comparison, a rate of around 40% is generally considered healthy. A lower bounce rate indicates that visitors are engaging with the site and accessing multiple pages, while a higher bounce rate may suggest that users are not finding the information they require.</p>
Monitoring Call Wait times	1m 30s mean average wait time	1m 20s mean average wait time	Ensure call wait times are kept to a minimum, improving experience for those who can only use phone contact. The planned introduction of live chat and chatbot functions over the next 18 months is also likely to impact on call wait times.
Number of Subscriptions on GovDelivery Service (email notifications)	91,200	97,500	Annual numbers of subscriptions across all newsletters is continuing in a positive direction. However, a greater focus on boosting subscription to the council's residents' newsletter, which although it has grown by 2% could benefit from greater promotion to align its increase with those seen by the Bin Collections Newsletter. Watersmeet currently has 23,000 subscribers, which is included in the projected annual volumes for future years.
