

PLANNING COMMITTEE – 18 April 2024

24/0102/FUL - Subdivision of the site and construction of a single storey detached dwelling with associated bicycle and bin storage, access, parking, and landscaping works; boundary treatments and new access onto The Courtway at 55 PENROSE AVENUE, CARPENDERS PARK, HERTFORDSHIRE, WD19 5AB (DCES)

Parish: Watford Rural

Ward: Carpenders Park

Expiry of Statutory Period: 22.04.2024 (agreed extension) Case Officer: Lauren Edwards.

Recommendation: That Planning permission be granted subject to the completion of a Section 106 agreement and conditions.

Reason for consideration by the Committee: The application was called in by three members of the planning committee due to local concern regarding overdevelopment of the site and parking.

To view all documents forming part of this application please go to the following website:
[24/0102/FUL | Subdivision of the site and construction of a single storey detached dwelling with associated bicycle and bin storage, access, parking, and landscaping works; boundary treatments and new access onto The Courtway | 55 Penrose Avenue Carpenders Park Hertfordshire \(threeivers.gov.uk\)](#)

Relevant Planning History

- 1.1 20/1000/FUL - Demolition of existing dwelling, subdivision of the site to provide two semi-detached bungalows with accommodation in the roof space served by front and rear dormers, provision of new vehicular access, associated car parking and amenity space – Permitted.
- 1.2 22/0966/FUL - Variation of Condition 2 (plan numbers) pursuant to planning permission 20/1000/FUL (Demolition of existing dwelling, subdivision of the site to provide two semi-detached bungalows with accommodation in the roof space served by front and rear dormers, provision of new vehicular access, associated car parking and amenity space) to alter front elevation and external finishes, front landscaping and internal alterations to Unit 1. Removal of conditions 3 (external materials), 6 (boundary treatment) and 7 (waste and recycling storage) – Permitted.
- 1.3 23/0054/FUL - Variation of Condition 2 (plan numbers) pursuant to planning permission 20/1000/FUL (Demolition of existing dwelling, subdivision of the site to provide two semi-detached bungalows with accommodation in the roof space served by front and rear dormers, provision of new vehicular access, associated car parking and amenity space) to include alterations to the approved rear dormer windows; alteration to approved front elevation and external finishes, front landscaping and internal alterations to Unit 1. Removal of conditions 3 (external materials), 6 (boundary treatment) and 7 (waste and recycling storage) – Permitted. and implemented.
- 1.4 23/0844/FUL - Subdivision of the site and construction of a single storey detached dwelling with accommodation in the roofspace served by front and rear dormer windows with associated works including, bicycle and bin store, landscaping works; boundary treatments and new access onto The Courtway -Refused for the following reason:

R1 The proposed development would represent a cramped and contrived form of development which would appear unduly prominent within the streetscene and would represent overdevelopment of the site. The overall unduly bulky form of the proposed dwelling resulting from the proposed Dutch hip roof form and incorporation of front and rear dormer windows. The development would therefore be contrary to Policies CP1, CP3 and

CP12 of the Core Strategy (adopted October 2011) and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

R2 Insufficient parking would be provided to serve the proposed development and the development to the south which is currently being constructed. The shortfall of parking provision would individually and cumulatively result in a significant increase in parking pressures outside of the site to the detriment of highway safety, the character of the area and residential amenity. The development would therefore be contrary to Policies CP1, CP10 and CP12 of the Core Strategy (adopted October 2011) and Policies DM1, DM13 and Appendices 2 and 5 of the Development Management Policies LDD (adopted July 2013).

R3 In the absence of an agreement under the provisions of Section 106 of Town and Country Planning Act 1990, the development would not contribute to the provision of affordable housing. The proposed development therefore fails to meet the requirements of Policy CP4 of the Core Strategy (adopted October 2011) and the Affordable Housing Supplementary Planning Document (approved June 2011).

2 Description of Application Site

- 2.1 The application site is roughly rectangular in shape and pertains to a parcel of land 200sqm in area which fronts The Courtway. The site forms part of the land which previously served as rear garden and garage to No.55 Penrose Avenue. That house has been demolished, with the southern part of the site currently being redeveloped to provide a pair of semi-detached bungalows in place of the former single bungalow which existed before.
- 2.2 To the north of the site fronting The Courtway is No.54a Greenfield Avenue which is a detached bungalow which has been constructed to the rear of No's.54 and 56 Greenfield Avenue.
- 2.3 No's.53 and 57 Penrose Avenue to the south-east and south-west respectively are both detached bungalows.

3 Description of Proposed Development

- 3.1 The application seeks full planning permission for subdivision of the site and construction of a single storey detached dwelling with associated bicycle and bin storage, access, parking, and landscaping works, boundary treatments and new access onto The Courtway.
- 3.2 The main section of the proposed new dwelling would have a depth of 9.8m and a width of 8.9m. There would also be a garage constructed to the northern side which would extend from the main flank to the boundary and would have a depth of 5.4m and a width of 2.5m. The proposed dwelling would have a maximum height of 5m with a hipped roof form. Two rear rooflights are also proposed which serve the living/dining area. The garage would have a gabled end with a height of 3.5m.
- 3.3 The garage serving the proposed dwelling would be set to the northern flank boundary, the main flank would be set in 3.5m and would be set back a minimum of 0.6m from the front boundary. The proposed dwelling would have two bedrooms. Bin and cycle storage would be provided to the rear. The rear would also include a garden with patio and lawn. Parking would be provided to the north of the dwelling (one in a garage and one on block paving to the side of the dwelling, in front of the garage).
- 3.4 Amended plans have been received during the course of the application to further reduce the scale of the proposed roof form.
- 3.5 This application follows a previous refusal. The current scheme incorporates the following main revisions:

- Omission of loft accommodation.
- Reduction in height/scale of the roof form and change from a Dutch hip to a hip.
- Alteration to parking layout.
- Revision to the siting of the proposed dropped kerb.
- Addition of a new space to serve one of the properties currently being constructed to the south.

4 Consultation

4.1 Statutory Consultation

4.1.1 Watford Rural Parish Council: [Objection]

I write in connection with the above planning application. WRPC have examined the plans and local councillors know the site well. We wish to object strongly to the development of land at this location for the following reasons:

We believe that this proposed plan fails under policy DM1 a) v). This type of infill development does not maintain the character of the area. Under Appendix 2 5. New Development iii) it states that a development must “Respect the character of the street scene, particularly with regard to the spacing of properties, roof form, positioning and style of windows and doors, and materials.” Having a split plot is one thing, but squeezing a further property in seems excessive.

Also, we believe that this policy may also fail under policy “DM1 Residential Design & Layout” of the Local Plan. Appendix 2 under point 3c “Amenity Garden Space” As has been pointed out, it seems that the parking space may have been incorporated into this calculation. In addition, the visibility splay document shows turning circles which utilise the pavement at the start of the arc and show the subsequent arc going over the pavement the opposite side, creating potential danger to pedestrians and other road users. WRPC respectfully ask TRDC to confirm that these aspects follow all essential guidelines.

We respectfully ask this to be pulled into to planning committee and ask TRDC councillors to finally put a stop to these types of conversion ongoing.

Finally, please note that our submission is in respect of the proposed development. While we have taken every effort to present accurate information for your consideration, as we are not a decision maker or statutory consultee, we cannot accept any responsibility for unintentional errors or omissions, and you should satisfy yourselves on any facts before reaching your decision.

4.1.2 Hertfordshire County Council – Highway Authority: [No objection]

Notice is given under article 22 of the Town and Country Planning (Development Management Procedure) (England) Order 2015 that Hertfordshire County Council as Highway Authority does not wish to restrict the grant of permission subject to the following conditions:

COND1) New Access

Prior to the first use of the development hereby permitted the vehicular access shall be completed and thereafter retained as shown on in-principal drawing number 101 in accordance with details/specifications to be submitted to and approved in writing by the Local Planning Authority in consultation with the highway authority. Prior to use appropriate arrangements shall be made for surface water to be intercepted and disposed of separately so that it does not discharge from or onto the highway carriageway.

Reason: To ensure satisfactory access into the site and avoid carriage of extraneous material or surface water from or onto the highway in accordance with Policy 5 of Hertfordshire's Local Transport Plan (adopted 2018).

INFORMATIVES

HCC as Highway Authority recommends inclusion of the following Advisory Note (AN) to ensure that any works within the highway are carried out in accordance with the provisions of the Highway Act 1980.

AN1) Works within the highway (section 278): The applicant is advised that in order to comply with this permission it will be necessary for the developer of the site to enter into an agreement with Hertfordshire County Council as Highway Authority under Section 278 of the Highways Act 1980 to ensure the satisfactory completion of the access and associated road improvements. The construction of such works must be undertaken to the satisfaction and specification of the Highway Authority, and by a contractor who is authorised to work in the public highway. Before works commence the applicant will need to apply to the Highway Authority to obtain their permission and requirements. Further information is available via the County Council website at:

AN2) Storage of materials: The applicant is advised that the storage of materials associated with the construction of this development should be provided within the site on land which is not public highway, and the use of such areas must not interfere with the public highway. If this is not possible, authorisation should be sought from the Highway Authority before construction works commence.

Further information is available via the website:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> or by telephoning 0300 1234047.

AN3) Obstruction of public highway land: It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence.

Further information is available via the website:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> or by telephoning 0300 1234047.

AN4) Debris and deposits on the highway: It is an offence under section 148 of the Highways Act 1980 to deposit compost, dung or other material for dressing land, or any rubbish on a made-up carriageway, or any or other debris on a highway to the interruption of any highway user. Section 149 of the same Act gives the Highway Authority powers to remove such material at the expense of the party responsible. Therefore, best practical means shall be taken at all times to ensure that all vehicles leaving the site during construction of the development and use thereafter are in a condition such as not to emit dust or deposit mud, slurry or other debris on the highway. Further information is available by telephoning 0300 1234047.

AN5) The Public Footpath: Should remain unobstructed by vehicles, machinery, materials, tools and any other aspects of the construction during works. Safe passage past the site should be maintained at all times for the public using this route. The condition of the route should not deteriorate as a result of these works. Any adverse effects to the surface from traffic, machinery or materials (especially overspills of cement & concrete) should be made

good by the applicant to the satisfaction of the Highway Authority. No materials shall be stored or left on the Highway including Highway verges. If the above conditions cannot reasonably be achieved, then a Temporary Traffic Regulation Order (TTRO) would be required to close the affected route and divert users for any periods necessary to allow works to proceed, for which a fee would be payable to Hertfordshire County Council. Further information is available via the County Council website at <https://www.hertfordshire.gov.uk/services/recycling-waste-and-environment/countryside-access/rightsof-way/rights-of-way.aspx> or by contacting Rights of Way, Hertfordshire County Council on 0300 123 4047.

COMMENTS

Context: Penrose Avenue is an unclassified local access road and is highway maintainable at public expense. A 30mph speed limit applies. Penrose Avenue is classed P2/M1 on the place and movement network. No reported highway collisions recorded within the vicinity of the application site (5-year rolling). No Public Right of Way (as shown on the PRow map) directly affects the site or would be affected by the proposal.

Proposed development: Involves the Subdivision of the site and construction of a single storey detached dwelling and new access.

Access: The proposals involve two new dropped kerb vehicle cross overs (VXO) (one per property) providing access via The Courtway. The Courtway is an unclassified local access road and is highway maintainable at public expense. A 30mph speed limit applies. The new accesses would comprise of three flat kerbs, (2.7m) flanked by two ramped kerbs, each 0.9m (overall length 4.5m). HCC as a highway authority considers the access proposals acceptable and in line with HCC's Residential Dropped Kerb Policy. A section 278 agreement will need to be entered into for the construction and alteration of three VXOs. More information can be found in the above informative.

Visibility: Achievable levels of inter-visibility between drivers exiting the site and other highway users (vehicles, cyclists and pedestrians) are demonstrated on submitted plans. A visibility splay of 43m in each direction would be consistent with Manual for Streets, Table 7.1 and Roads in Hertfordshire (section 4: sub-section 2.3) for a 30mph speed environment (set-back 2.4m from the carriageway, a 2m set-back may be considered in lightly trafficked and slow speed situations, MfS:7.7.7). Within the vertical plane, there should be no obstruction to visibility 2m high down to a point 600mm above the carriageway, the latter to ensure that small children can be seen (MfS 7.6.3), passing along the footway.

Visibility is considered to be achievable and in accordance with Roads in Hertfordshire: Highway Design Guide (Table 4.2.3.1)' and 'Manual for Streets (MfS) (Table 7.1, sections 7.8 / 7.9)'.

Trip Generation: The additional habitable space to be created as a result / nature of the proposed development is unlikely to result in a material increase in additional vehicle trips to and from the site. No significant, or severe, impact on the transport network is identified.

Parking: The LPA shall be responsible for assessing the proposed development against local parking standards and to satisfy for itself that any level of parking it requires can be achieved within the boundary of the site and not overhang the highway, including the highway footway. The Highway Authority would observe the following. The scale plans demonstrate that two external on site car parking spaces are a minimum of 4.8m x 2.4m and can be accommodated within the site. The proposed garage scales from submitted plans at around 3m wide and 5m deep (internal dimensions). This is not within the 3m wide x 6m deep dimensions recommended in Roads in Hertfordshire: Highway Design Guide (section 4, 9.3) for on-plot garages (single space). Research presented within Manual for Streets (8.3.40) suggests that less than half of garages are used for purposes other than

the parking of a private vehicle. The loss of a garage may not necessarily result in the loss of an effective parking space for a car. HCC as a highway authority would only consider the two parking spaces excluding the garage as allocated spaces - Ultimately, Three rivers as the parking authority will determine whether the provision of only one parking space per property (two in total) is sufficient.

A cycle store is indicated within the block plan and is in line with HCC's Local Transport Plan Policy 1. Emergency Vehicle Access: Consistent with the NPPF (2023), para. 116 (d), applications for development should allow for access by emergency vehicles. Guidance is set out in Manual for Streets (MfS) (6.7.2) and in Roads in Hertfordshire: A Design Guide (section 2, 6.6). (Requirements are set out in Building Regulations). Access for a pumping appliance should be provided to within 45m of a single dwelling (and within 45m of all points within a dwellings). As far as it can be reasonably ascertained from submitted plans, the proposed development would be within the recommended emergency vehicle access distance from the highway.

Refuse / Recycling Storage

Provision has been made for an on-site bin store within 30m of the dwelling and within 25m of the kerbside/bin collection.

CONCLUSION

HCC as Highway Authority has considered the proposal and concludes that it would not give rise to an unacceptable impact on the safety or operation of the surrounding highway. It raises no objections but recommends the inclusion of the above condition and highway informative / advisory notes.

The applicant will need to enter into a 278 agreement with HCC as Highway Authority in relation to the new access, and an advisory note is recommended in this respect. Further information can be found on the county council's website:

<https://www.hertfordshire.gov.uk/services/Highways-roads-and-pavements/Changes-to-your-road/Dropped-kerbs/Dropped-kerbs.aspx>.

4.1.3 **National Grid:** No response received.

4.2 Public/Neighbour Consultation

4.2.1 Number consulted: 6

4.2.2 No of responses received: 8 objections

4.2.3 Site Notice: Not required Press notice: Not required

4.2.4 Summary of Responses:

- Abuse of system with number of applications received at this site.
- Parking issues.
- Noise and disturbance.
- Out of character.
- Pavement gets blocked/highway safety concerns.
- Corruption/unfair for Officers to assist developer.
- Current works not in accordance with plans.
- Overlooking.
- Pressure on existing infrastructure.
- Proposal profit driven.
- One bungalow on site – this would be a third.

- Impact on property value
- Council should stop repeated applications.
- One application at the site has already been refused.

Officer comment: The on-going works to the southern part of the site are being investigated under separate cover. Some of the issues raised above do not constitute material planning considerations. Those which are will be discussed in the analysis section below.

5 Reason for Delay

5.1 Not applicable.

6 Relevant Planning Policy, Guidance and Legislation

6.1 Planning applications are required to be determined in accordance with the statutory development plan unless material considerations indicate otherwise as set out within S38 (6) Planning and Compulsory Purchase Act 2004 and S70 of Town and Country Planning Act 1990).

6.2 National Planning Policy Framework and National Planning Practice Guidance

In December 2023 the new National Planning Policy Framework was published. This is read alongside the National Planning Practice Guidance (NPPG). The determination of planning applications is made mindful of Central Government advice and the Local Plan for the area. It is recognised that Local Planning Authorities must determine applications in accordance with the statutory Development Plan, unless material considerations indicate otherwise, and that the planning system does not exist to protect the private interests of one person against another. The NPPF is clear that “existing policies should not be considered out-of-date simply because they were adopted or made prior to the publication of this Framework. Due weight should be given to them, according to their degree of consistency with this Framework”.

The NPPF states that ‘good design is a key aspect of sustainable development, creates better places in which to live and work and helps make development acceptable to communities’. The NPPF retains a presumption in favour of sustainable development. This applies unless any adverse impacts of a development would ‘significantly and demonstrably’ outweigh the benefits.

6.3 The Three Rivers Local Development Plan

The application has been considered against the policies of the Local Plan, including the Core Strategy (adopted October 2011), the Development Management Policies Local Development Document (adopted July 2013) and the Site Allocations Local Development Document (adopted November 2014) as well as government guidance. The policies of Three Rivers District Council reflect the content of the NPPF.

The Core Strategy was adopted on 17 October 2011 having been through a full public participation process and Examination in Public. Relevant policies include Policies PSP3, CP1, CP3, CP4, CP9, CP10 and CP12.

The Development Management Policies Local Development Document (DMLDD) was adopted on 26 July 2013 after the Inspector concluded that it was sound following Examination in Public which took place in March 2013. Relevant policies include DM1, DM4, DM6, DM9, DM13 and Appendices 2 and 5.

The Site Allocations Local Development Document (SALDD) was adopted on 25 November 2014 having been through a full public participation process and Examination in Public.

6.4 Other

Affordable Housing Supplementary Planning Document (adopted June 2011).

The Community Infrastructure Levy (CIL) Charging Schedule (adopted February 2015).

The Localism Act received Royal Assent on 15 November 2011. The growth and Infrastructure Act achieved Royal Assent on 25 April 2013.

The Wildlife and Countryside Act 1981 (as amended), the Conservation of Habitats and Species Regulations 2010, the Natural Environment and Rural Communities Act 2006 and the Habitat Regulations 1994 may also be relevant.

7 **Planning Analysis**

7.1 Principle of Development

7.1.1 The proposed development would result in a net gain of one dwelling on the application site. The site is not identified as a housing site in the Site Allocations LDD (SALDD) (adopted November 2014). However, as advised in this document, where a site is not identified for development, it may still come forward through the planning application process where it will be tested in accordance with relevant national and local policies.

7.1.2 Policy CP2 of the Core Strategy (adopted October 2011) advises that in assessing applications for development not identified as part of the District's housing land supply, including windfall sites, applications will be considered on a case by case basis having regard to:

- i. The location of the proposed development, taking into account the Spatial Strategy.
- ii. The sustainability of the development and its contribution to meeting local housing needs.
- iii. Infrastructure requirements and the impact on the delivery of allocated housing sites.
- iv. Monitoring information relating to housing supply and the Three Rivers housing targets.

7.1.3 The application site is within a Secondary Centre as set out within the Core Strategy. Policy PSP3 sets out that Secondary Centres should provide approximately 24% of the District's housing requirements.

7.1.4 The application site is not an allocated site for residential development and as such the proposal would be a windfall development. However the application site sits within an established residential area. As such there is no in principle objection to residential development on the site however this is subject to all other material considerations as outlined below.

7.2 Housing Mix

7.2.1 Policy CP3 of the Core Strategy advises that housing proposals take into account the range of housing needs, in terms of size and type of dwellings as identified by the SHMA and subsequent updates. The Local Housing Needs Assessment (LNHA), was finalised in 2020 and is the most recent update to the SHMA. The recommended mix for market housing, affordable home ownership and social/affordable rented housing identified in the LNHA is shown below:

1 bedroom 5% of dwellings

2 bedrooms 23% of dwellings

3 bedrooms 43% of dwellings

4+ bedrooms 30% of dwellings

7.2.2 The SHMA and the Core Strategy recognise that these proportions may need to be adjusted taking account of market information, housing needs and preferences and specific site factors. The nature of the proposed development means that it would provide one 2-bedroom house which is the second least required within the district and the proposal would not strictly accord with the mix prescribed by Policy CP3 of the Core Strategy. However it is considered that a development of this nature, which proposes one new house, would not prejudice the ability of the Council to deliver overall housing targets and the development is therefore considered acceptable in accordance with Policy CP3 of the Core Strategy (adopted October 2011).

7.3 Affordable Housing

7.3.1 In view of the identified pressing need for affordable housing in the District, Policy CP4 of the Core Strategy seeks provision of around 45% of all new housing as affordable housing and requires development resulting in a net gain of one or more dwellings to contribute to the provision of affordable housing. This is set out further at **Appendix A**. Developments resulting in a net gain of between one and nine dwellings may meet the requirement to provide affordable housing through a financial contribution. Details of the calculation of financial contributions in lieu of on-site provision of affordable housing are set out in the Affordable Housing Supplementary Planning Document. The proposed development would result in a net gain of one dwelling and as such a monetary contribution would be required to be sought unless viability demonstrates otherwise.

7.3.2 A draft Section 106 agreement was submitted with the application. Based upon a 58sqm creation of habitable floorspace the development would require a contribution of £20,300 (plus indexation) based upon 58 x £350 per sqm (Oxhey and Watford fringe). The indexation linked figure is £32,480 based on January 2024 RPI figures. The application has been accompanied by a draft S106 however this contained the figure of £26 250 (index linked) which is above the officer calculations as set out above (£20,300 plus indexation).

7.3.3 Subject to the completion of a Section 106 agreement to secure the £20,300 plus indexation the proposal would accord with Policy CP4 of the Core Strategy (adopted October 2011).

7.4 Impact on Character and Street Scene

7.4.1 Policy CP1 of the Core Strategy (adopted October 2011) seeks to promote buildings of a high enduring design quality that respect local distinctiveness and Policy CP12 of the Core Strategy (adopted October 2011) relates to design and states that in seeking a high standard of design the Council will expect development proposals to 'have regard to the local context and conserve or enhance the character, amenities and quality of an area'. Development should make efficient use of land but should also respect the 'distinctiveness of the surrounding area in terms of density, character, layout and spacing, amenity, scale, height, massing and use of materials'; 'have regard to the local context and conserve or enhance the character, amenities and quality of an area' and 'incorporate visually attractive frontages to adjoining streets and public spaces'.

7.4.2 In terms of new residential development, Policy DM1 of the DMLDD advises that the Council will protect the character and residential amenity of existing areas of housing from forms of 'backland', 'infill' or other forms of new residential development which are inappropriate for the area. Development will only be supported where it can be demonstrated that the proposal will not result in:

- i. Tandem development;

- ii. Servicing by an awkward access drive which cannot easily be used by service vehicles;
- iii. The generation of excessive levels of traffic;
- iv. Loss of residential amenity;
- v. Layouts unable to maintain the particular character of the area in the vicinity of the application site in terms of plot size, plot depth, building footprint, plot frontage width, frontage building line, height, gaps between buildings and streetscape features (e.g. hedges, walls, grass verges etc.)

7.4.3 The proposal would not comprise tandem development as the proposed new dwelling would front a road nor would it be served by an awkward access drive. Impact on residential amenity and highways considerations are discussed in the relevant sections below.

7.4.4 The Officer's report pursuant to 23/0844/FUL set out the development considered via that application to be unacceptable for the reasons set out below:

It is wholly acknowledged that there are other examples of similar development in the locality, including at the immediate neighbour to the north, of infill developments at the end of the rear gardens of corner plots within Carpenders Park. As such the principle of infill development is not in itself objectionable. It is also acknowledged that the resultant plot size, footprint and plot width would not be completely at odds with other examples within the locality and would broadly reflect that of the plot to the north. The proposed dwelling would also be road fronting which would respond to the prevailing character of the area. Nevertheless where there are other examples of similar infill style developments of this nature the proposed dwellings have generally been single storey detached bungalows with modest pitched roofs and have not included loft accommodation. The proposed new dwelling would have a Dutch hip roof, higher than the immediate neighbour at No.54a and would have front and rear dormer windows. Owing to the overall scale and design of the proposed dwelling its appearance within the streetscene would be cramped and would sit uncomfortably within the plot giving the visual perception of overdevelopment of the site. The proposed new dwelling would have a particularly top heavy appearance resulting from its overall height and Dutch hip roof form. The undue bulk and massing of the roof form would be further exacerbated by the pitched roof front dormer and rear box dormer, both of which would be visible from a number of public vantage points along Penrose Avenue and The Courtway. The bulk and massing of the roof form would emphasise the cramped and contrived nature of the proposed development which appears unduly prominent and incongruous within the streetscene and represents overdevelopment of the site.

Overall the proposed development would represent a cramped and contrived form of development which would appear unduly prominent within the streetscene and would represent overdevelopment of the site. The overall unduly bulky form of the proposed dwelling resulting from the proposed Dutch hip roof form and incorporation of front and rear dormer windows. The development would therefore be contrary to Policies CP1, CP3 and CP12 of the Core Strategy (adopted October 2011) and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

7.4.5 As set out above the Officer's report acknowledged there are other similar examples development within the locality including the immediate neighbour to the north. Thus there was not an in principle objection to the development, however, the previously proposed dwelling did not respond to the prevailing character of the area. Generally the other examples evident include single storey detached bungalows with modest pitched roofs and have not contained loft accommodation whereas the previously refused scheme included a bedroom in the loft space served by a rear dormer and Dutch hipped roof form.

7.4.6 The proposed new dwelling as now submitted does not contain loft accommodation. Whilst it does have a slightly larger roof than the neighbour immediately to the north due to a wider ridge its overall scale, form and design now broadly responds to the other examples evident

within the locality. Furthermore its plot size, footprint and layout are also generally akin to those other examples apparent in the area and the proposed level of amenity space would also be compliant with Appendix 2. The omission of loft accommodation and modest hipped roof now proposed are considered to alleviate the cramped appearance the previous proposed would have had. There would no longer be a top heavy roof form or dormer windows.

7.4.7 It is acknowledged that the plots and gardens of properties fronting the longer roads (e.g the main sections of Greenfield Avenue and Penrose Avenue) are longer than that proposed. However properties found on the 'connecting' roads have shorter plots. The closest example is the immediate neighbour to the north at No.54a Greenfield Avenue. The plots within The Courtway are also smaller owing to the 'crescent' nature of the road. There are also more examples of similar infilling within the connecting roads between Harrow Way, Compton Place and St George's drive which also fall within Carpenders Park and have comparable overall characters. The immediate neighbour to the north has a plot width of approx. 12.7m and a depth of 17m. The proposed plot would have an overall width of 13.3m and a depth of 15.6m. Thus overall would be broadly comparable. The proposed dwelling would also be similar in its overall footprint to the neighbour at No.54a Greenfield Avenue (width 11.4m vs 12.7m proposed, depth 9.2m vs 8.9m proposed). The plot width coverage of the neighbour to the north and that proposed is also relatively comparable as similar spacing is achieved to the north of the neighbour to the boundary as is the case to the south of the proposed dwelling.

7.4.8 It is wholly acknowledged that each site must be assessed on its own merits and direct comparisons of other development cannot be relied upon alone to justify the acceptability of a scheme. However the proposed dwelling as now submitted would have a design which would not appear incongruous within the locality and even considering the existing ongoing development to the south would not give rise to an unduly cramped or contrived layout which would represent overdevelopment of the plot as a whole. The proposed dwelling would be finished in render, facing brickwork and a slate roof. These materials are reflective of other properties in locality which would further assist in the assimilation of the new dwelling into the streetscene.

7.4.9 Overall it is considered that the proposed new dwelling would be acceptable in this regard and that the previous reason for refusal has been overcome. The proposal would be in accordance with Policies CP1, CP3 and CP12 of the Core Strategy (adopted October 2011) and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

7.5 Impact on amenity of neighbours

7.5.1 Policy CP12 of the Core Strategy states that development should 'protect residential amenities by taking into account the need for adequate levels and disposition of privacy, prospect, amenity and garden space'. Policy DM1 and Appendix 2 of the Development Management Policies document set out that development should not result in loss of light to the windows of neighbouring properties nor allow overlooking, and should not be excessively prominent in relation to adjacent properties.

7.5.2 The main flank of the proposed new dwelling would be set off the boundary with the neighbour at No.54a Greenfield Avenue (which fronts The Courtway) although it is acknowledged that the proposed garage would be set to the boundary where it would adjoin the neighbouring garage. The proposed dwelling would not extend beyond the front or rear elevations of this neighbouring dwelling and additional spacing is afforded by the existing garage of this neighbour. The southern flank of this neighbour is also absent of windows. Overall it is not considered that the proposed dwelling, which would have a hipped roof sloping away from the boundary would result in unacceptable harm to this neighbour by virtue of an overbearing impact or loss of light.

- 7.5.3 The proposed dwelling does not include any loft accommodation with the rear rooflights serving the ground floor living/dining area. Windows/doors would be at ground floor level only and owing to their siting would not give rise to unacceptable overlooking.
- 7.5.4 The proposed new dwelling would be readily visible to the dwellings being constructed to the south of the site. However 9m of garden would separate their rear elevations from the boundary with the new plot with the main dwelling set a further 1m in from the boundary. Overall when considering the distances and orientation of the new dwelling relative to those being constructed, and its single storey nature, it is not considered that the proposed new dwelling would give rise to unacceptable loss of light or an overbearing impact to these neighbours.
- 7.5.5 Overall, it is not considered that the proposed development would result in any significant detrimental impact to the residential amenities of existing neighbouring dwellings. The development would therefore be acceptable in this regard in accordance with Policies CP1 and CP12 of the Core Strategy (adopted October 2011) and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

7.6 Highways, Access and Parking

- 7.6.1 Core Strategy Policy CP10 requires development to provide a safe and adequate means of access and to make adequate provision for all users, including car parking. Policy DM13 and Appendix 5 of the Development Management Policies document set out parking standards and dictates that two bedroom dwellings should provide two off-street parking spaces.
- 7.6.2 The previous application was considered unacceptable for a combined reason. It had not been demonstrated that the two parking spaces proposed for the new dwelling could be accessed by a lawful dropped kerb and the proposal would have also led to the removal of the parking space which would have served one of the other new dwellings currently under construction to the south.
- 7.6.3 This application now incorporates a parking space to the south of the proposed new dwelling to serve the new dwelling currently under construction. Thus this dwelling would still be provided with the one parking space in accordance with its approval. This would also be served by a vehicular cross over (VXO) which is considered acceptable to the Highways Officer.
- 7.6.4 The proposed dwelling would have two bedrooms and as such would require 2 spaces (1 assigned). The current proposal includes the provision of 2 parking spaces to the north of the new dwelling, on site. One space would be in a garage and the other in front (still within the site). The proposed garage would comply with Hertfordshire County Council guidance in relation to its width but not its depth. The proposed depth would be 1m shorter than required by HCC standards. Whilst it would be possible to fit an average sized car (e.g Ford Mondeo, BMW 3 series) in the garage there would not also be room for ancillary storage as well, as is the aim of the HCC size guidance. Notwithstanding this given it is not completely compliant with the guidance regard must be had as to whether one parking space to serve the new dwelling would be sufficient. The parking space to the front of the garage would be served by a new dropped kerb which is considered satisfactory to the Highways Officer. Furthermore would be of a sufficient size to comfortably accommodate a car.
- 7.6.5 The application site is within a 0.4 mile (10 minute) walk of Carpenders Park Station. There are also local bus services to Watford within a similar walk together with local shops and services. There is some provision for on street parking in the locality however this is not relied upon. When considering the location of the site and the provision of cycle stores, together with the provision of the requisite number of allocated spaces it is not considered that a shortfall of one parking space would give rise to demonstrable harm in this case.

7.7 Quality of accommodation for future occupants

- 7.7.1 Policy CP12 of the Core Strategy states that development should take into account the need for adequate levels and disposition of privacy, prospect, amenity and garden space.
- 7.7.2 Appendix 2 of the DMP LDD outlines that two bedroom dwellings should provide 63sqm of amenity space. The proposed plot would provide a private rear garden of 69sqm. As such the proposed development would comply with Appendix 2 in this respect.
- 7.7.3 Whilst the proposed development would result in a decrease of the amenity space which was consented to serve the new dwellings to the south, the dwelling to the west would still retain 63 sqm of amenity which would be sufficient to serve the 2 x two bedroom dwelling. As a result of the new parking space the dwelling to the east would have 50sqm (13sqm lower than policy compliance). Notwithstanding this the amenity space reserved for this dwelling would be of a good quality and the application site is within a 0.2 mile (4 minute) walk of Greenfield Avenue play area which provides public open space. In this case it is not considered that a 13sqm shortfall would result in demonstrable harm.
- 7.7.4 Appendix 2 of the DMP LDD outlines that where garden length alone is relied upon for privacy a minimum of 14m should be achieved. A 9m separation distance would be achieved between the rear elevation of the new dwellings being constructed to the south which is below the 14m separation distance set out within Appendix 2. However the only flank window within the southern flank of the dwelling would serve a bathroom and it is not considered that the views afforded from the dormer windows of the properties being constructed to the south towards the garden of the new dwelling would be at odds with those generally expected in a residential area.

7.8 Wildlife and Biodiversity

- 7.8.1 Section 40 of the Natural Environment and Rural Communities Act 2006 requires Local Planning Authorities to have regard to the purpose of conserving biodiversity. This is further emphasised by regulation 3(4) of the Habitat Regulations 1994 which state that Councils must have regard to the strict protection for certain species required by the EC Habitats Directive.
- 7.8.2 The protection of biodiversity and protected species is a material planning consideration in the assessment of applications in accordance with Policy CP9 of the Core Strategy (adopted October 2011) and Policy DM6 of the DMLDD. National Planning Policy requires Local Authorities to ensure that a protected species survey is undertaken for applications that may be affected prior to determination of a planning application.
- 7.8.3 A Biodiversity Checklist was submitted with the application and states that no protected species or biodiversity interests will be affected as a result of the application.

7.9 Trees and Landscaping

- 7.9.1 Policy DM6 of the Development Management Policies LDD advises that development proposals 'should demonstrate that existing trees, hedgerows and woodlands will be safeguarded and managed during and after development in accordance with the relevant British Standards'.
- 7.9.2 The application site is not located within a Conservation Area nor are there any on site TPOs.
- 7.9.3 The proposed block plan indicates that the rear garden would be lawned with hardstanding to the front. The proposed layout is considered appropriate within the context of the area and as such a further hard and soft landscaping condition is not considered necessary.

7.10 Sustainability

7.10.1 Policy DM4 of the Development Management Policies document states that applications for new residential development will be required to demonstrate that the development will meet a zero carbon standard (as defined by central government). However the government are not pursuing zero carbon at this time and therefore the requirements of DM4 to achieve a 5% saving in CO2 over 2013 Building Regulations Part L would continue to apply.

7.10.2 This application is accompanied by an energy statement prepared by Elmhurst energy which confirms that the proposed development would exceed the 5% saving set out within Part L (Total saving of 5.69%). As such the development complies with the requirements of Policy DM4.

7.11 Refuse and Recycling

7.11.1 Policy DM10 (Waste Management) of the DMLDD advises that the Council will ensure that there is adequate provision for the storage and recycling of waste and that these facilities are fully integrated into design proposals. New developments will only be supported where:

- i) The siting or design of waste/recycling areas would not result in any adverse impact to residential or work place amenity
- ii) Waste/recycling areas can be easily accessed (and moved) by occupiers and by local authority/private waste providers
- iii) There would be no obstruction of pedestrian, cyclists or driver site lines

7.11.2 Refuse stores are proposed within the rear garden with a side access available to take the bins through to the frontage on collection days. The proposed arrangements are considered acceptable for the residential context of the site.

8 **Recommendation**

8.1 That PLANNING PERMISSION BE GRANTED subject to the following conditions and subject to the completion of a Section 106 Agreement:

C1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason: In pursuance of Section 91(1) of the Town and Country Planning Act 1990 and as amended by the Planning and Compulsory Purchase Act 2004.

C2 The development hereby permitted shall be carried out in accordance with the following approved plans: LAR_000 B, LAR_100 C, LAR_004 A, LAR_101 B, LAR_102 B and LAR_103A

Reason: For the avoidance of doubt and in the proper interests of planning, in the interests of the visual amenities of the locality and the residential amenity of neighbouring occupiers, in accordance with Policies CP1, CP2, CP3, CP4, CP8, CP9, CP10 and CP12 of the Core Strategy (adopted October 2011) and Policies DM1, DM4, DM6, DM8, DM13 and Appendices 2 and 5 of the Development Management Policies LDD (adopted July 2013).

C3 The new dwelling shall not be erected other than in the materials as have been approved in writing by the Local Planning Authority as shown on the approved plans and as set out in the submitted application form and no external materials shall be used other than those approved.

Reason: To prevent the building being constructed in inappropriate materials in accordance with Policies CP1 and CP12 of the Core Strategy (adopted October 2011)

and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

- C4 The development shall not be occupied until the energy saving and renewable energy measures detailed within the Energy Statement submitted as part of the application are incorporated into the approved development.

Reason: To ensure that the development meets the requirements of Policies CP1 and CP12 of the Core Strategy (adopted October 2011) and Policies DM1, DM4 and Appendix 2 of the Development Management Policies LDD (adopted July 2013) and to ensure that the development makes as full a contribution to sustainable development as possible.

- C5 Prior to the first occupation of the development hereby permitted the vehicular access and parking spaces shall be completed and thereafter retained in accordance with the details and layout as more particularly shown on plan number LAR_101 Rev B. Prior to their first use appropriate arrangements shall also be made for surface water to be intercepted and disposed of separately so that it does not discharge from or onto the highway carriageway.

Reason: To minimise danger, obstruction and inconvenience to highway users in the interests of safety in accordance with Policies CP1, CP10 and CP12 of the Core Strategy (adopted October 2011) and Policy DM13 and Appendix 5 of the Development Management Policies LDD (adopted July 2013).

- C6 Immediately following the implementation of this permission, notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any other revoking and re-enacting that order with or without modification) no development within the following Classes of Schedule 2 of the Order shall take place.

Part 1

Class A - enlargement, improvement or other alteration to the dwelling

Class B - enlargement consisting of an addition to the roof

Class D - erection of a porch

Class E - provision of any building or enclosure

Part 2

Class A - erection, construction, maintenance or alteration of a gate, fence, wall or other means of enclosure

No development of any of the above classes shall be constructed or placed on any part of the land subject of this permission.

Reason: To ensure adequate planning control over further development having regard to the limitations of the site and neighbouring properties and in the interests of the visual amenities of the site and the area in general, in accordance with Policies CP1 and CP12 of the Core Strategy (adopted October 2011) and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

- C7 The boundary treatment shall be carried out and maintained in accordance with the layout and details as more particularly shown on plan number LAR_101 Rev B.

Reason: To ensure that appropriate boundary treatments are proposed to safeguard the amenities of neighbouring properties and the character of the locality in

accordance with Policies CP1 and CP12 of the Core Strategy (adopted October 2011) and Policy DM1 and Appendix 2 of the Development Management Policies LDD (adopted July 2013).

8.2 **Informatives:**

- 11 With regard to implementing this permission, the applicant is advised as follows:

All relevant planning conditions must be discharged prior to the commencement of work. Requests to discharge conditions must be made by formal application. Fees are £145 per request (or £43 where the related permission is for extending or altering a dwellinghouse or other development in the curtilage of a dwellinghouse). Please note that requests made without the appropriate fee will be returned unanswered.

There may be a requirement for the approved development to comply with the Building Regulations. Please contact Hertfordshire Building Control (HBC) on 0208 207 7456 or at buildingcontrol@hertfordshirebc.co.uk who will be happy to advise you on building control matters and will protect your interests throughout your build project by leading the compliance process. Further information is available at www.hertfordshirebc.co.uk.

Community Infrastructure Levy (CIL) - Your development may be liable for CIL payments and you are advised to contact the CIL Officer for clarification with regard to this. It is a requirement under Regulation 67 of The Community Infrastructure Levy Regulations 2010 (As Amended) that a Commencement Notice (Form 6) is submitted to Three Rivers District Council as the Collecting Authority no later than the day before the day on which the chargeable development is to be commenced. DO NOT start your development until the Council has acknowledged receipt of the Commencement Notice. Failure to do so will mean you will lose the right to payment by instalments (where applicable), lose any exemptions already granted, and a surcharge will be imposed.

Care should be taken during the building works hereby approved to ensure no damage occurs to the verge or footpaths during construction. Vehicles delivering materials to this development shall not override or cause damage to the public footway. Any damage will require to be made good to the satisfaction of the Council and at the applicant's expense.

Where possible, energy saving and water harvesting measures should be incorporated. Any external changes to the building which may be subsequently required should be discussed with the Council's Development Management Section prior to the commencement of work.

- 12 The applicant is reminded that the Control of Pollution Act 1974 allows local authorities to restrict construction activity (where work is audible at the site boundary). In Three Rivers such work audible at the site boundary, including deliveries to the site and running of equipment such as generators, should be restricted to 0800 to 1800 Monday to Friday, 0900 to 1300 on Saturdays and not at all on Sundays and Bank Holidays.
- 13 The Local Planning Authority has been positive and proactive in its consideration of this planning application, in line with the requirements of the National Planning Policy Framework and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015. The development maintains/improves the economic, social and environmental conditions of the District.

- 14 The applicant is reminded that this planning permission is subject to either a unilateral undertaking or an agreement made under the provisions of Section 106 of the Town and Country Planning Act 1990
- 15 Works within the highway (section 278): The applicant is advised that in order to comply with this permission it will be necessary for the developer of the site to enter into an agreement with Hertfordshire County Council as Highway Authority under Section 278 of the Highways Act 1980 to ensure the satisfactory completion of the access and associated road improvements. The construction of such works must be undertaken to the satisfaction and specification of the Highway Authority, and by a contractor who is authorised to work in the public highway. Before works commence the applicant will need to apply to the Highway Authority to obtain their permission and requirements. Further information is available via the County Council website at:

Storage of materials: The applicant is advised that the storage of materials associated with the construction of this development should be provided within the site on land which is not public highway, and the use of such areas must not interfere with the public highway. If this is not possible, authorisation should be sought from the Highway Authority before construction works commence.

Further information is available via the website:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> by telephoning 0300 1234047.

Obstruction of public highway land: It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence.

Further information is available via the website:

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> or by telephoning 0300 1234047.

Debris and deposits on the highway: It is an offence under section 148 of the Highways Act 1980 to deposit compost, dung or other material for dressing land, or any rubbish on a made-up carriageway, or any or other debris on a highway to the interruption of any highway user. Section 149 of the same Act gives the Highway Authority powers to remove such material at the expense of the party responsible. Therefore, best practical means shall be taken at all times to ensure that all vehicles leaving the site during construction of the development and use thereafter are in a condition such as not to emit dust or deposit mud, slurry or other debris on the highway. Further information is available by telephoning 0300 1234047.

The Public Footpath: Should remain unobstructed by vehicles, machinery, materials, tools and any other aspects of the construction during works. Safe passage past the site should be maintained at all times for the public using this route. The condition of the route should not deteriorate as a result of these works. Any adverse effects to the surface from traffic, machinery or materials (especially overspills of cement & concrete) should be made good by the applicant to the satisfaction of the Highway Authority. No materials shall be stored or left on the Highway including Highway verges. If the above conditions cannot reasonably be achieved, then a Temporary Traffic Regulation Order (TTRO) would be required to close the affected route and

divert users for any periods necessary to allow works to proceed, for which a fee would be payable to Hertfordshire County Council. Further information is available via the County Council website at <https://www.hertfordshire.gov.uk/services/recycling-waste-and-environment/countryside-access/rightsof-way/rights-of-way.aspx> or by contacting Rights of Way, Hertfordshire County Council on 0300 123 4047.

Evidence Relating to the Application of the Affordable Housing Threshold in Core Strategy Policy CP4: Affordable Housing

Background

- 1.1 In November 2014, the Minister of State for Housing and Planning issued a Written Ministerial Statement (WMS) setting out changes to national planning policy. The WMS stated that financial contributions towards affordable housing should no longer be sought on sites of 10 units or less and which have a maximum combined gross floor area of 1,000sqm. National Planning Practice Guidance (NPPG) was amended to reflect this. However on 31st July 2015 the High Court held (*West Berkshire Council v SSCLG* [2015]) that the policy expressed through the WMS was unlawful and the NPPG was changed to reflect this. On 11th May 2016 the Court of Appeal reversed the High Court decision. The NPPG was subsequently amended to reflect the WMS on 19th May 2016.
- 1.2 In light of the above developments, between November 2014 and August 2015 and May 2016 and 1st September 2017 the Council gave greater weight to the WMS policy and associated NPPG guidance in it than to adopted Policy CP4 of its Core Strategy in respect of development proposals for 10 dwellings or less and which had a maximum combined gross floor area of 1000 sq metres. However, having undertaken an analysis of up to date evidence of housing needs (**The Needs Analysis**), officers advised in 2017 that when considering the weight to be given to the WMS in the context of breaches of the adopted development plan policy, the local evidence of housing need contained in the Needs Analysis should generally be given greater weight. On 1st September 2017 the Council resolved to have regard to the Needs Analysis as a consideration of significant weight when considering the relationship between Policy CP4 and the WMS for the purposes of Section 70(2) Town and Country Planning Act 1990 and Section 38(6) Planning and Compulsory Purchase Act 2004 in respect of development proposals of 10 dwellings or less.
- 1.3 On 24th July 2018 a new version of the National Planning Policy Framework¹ (the Framework) was published with immediate effect for development management purposes. Paragraph 64 of the Framework advises that *“Provision of affordable housing should not be sought for residential developments that are not major developments, other than in designated rural areas (where policies may set out a lower threshold of 5 units or fewer).”* Annex 2 of the NPPF defines *“major development”* as *“for housing, development where 10 or more homes will be provided, or the site has an area of 0.5 hectares or more.”*
- 1.4 The Council's current affordable housing policy is set out in Policy CP4 of the Core Strategy (adopted in October 2011) and establishes that :
 - a) “...All new development resulting in a net gain of one or more dwellings will be expected to contribute to the provision of affordable housing.”
 - e) “In most cases require affordable housing provision to be made on site, but in relation to small sites delivering between one and nine dwellings, consider the use of commuted payments towards provision off site. Such payments will be broadly equivalent in value to on-site provision but may vary depending on site circumstances and viability.”
- 1.5 The supporting text to Policy CP4 summarises the justification for it:

¹ The National Planning Policy Framework was updated in February 2019 and July 2021 and retains the policies as stated in Paragraph 1.3 of this document.

- Average house prices in Three Rivers are some of the highest in the country outside of London. As a result, many local people have difficulty accessing housing on the open market.
- A Housing Needs Study estimated that 429 affordable dwellings would be needed each year to satisfy need. Such provision would exceed the total number of all housing types provided in the District in any year.
- The 2010 Strategic Market Housing Assessment (SMHA) found that the requirement for affordable housing in and around the Three Rivers area remains exceptionally high.
- In order to completely satisfy affordable housing requirements, **all** future housing in the district to 2021 would need to be affordable.

1.6 This policy remains the legal starting point for the consideration of planning applications under Section 38(6) PCPA 2004, which requires that the Council determines applications in accordance with the adopted development plan unless material considerations indicate otherwise. Revised NPPF 64 is a material consideration. The weight to be given to it is a matter for the decision maker when determining each planning application. This note explains the advice from the Head of Planning Policy & Conservation and Head of Regulatory Services on the weight that they recommend should be given to NPPF 64 for these purposes in light of the Needs Analysis.

1.7 Since the adoption of its Core Strategy in 2011 and as of 31 December 2022, Three Rivers has received small site affordable housing contributions amounting to over **£2.9 million**. Utilising those monies has funded the delivery of 55 units of additional affordable housing to date. It is clear that Three Rivers' policy has already delivered a significant contribution towards the delivery of much needed affordable housing in the district.

1.8 In addition to the £2.9 million already received, small scale (1-9 unit) schemes have secured to date a further **£760,000.00 to £2million²** of affordable housing contributions in respect of unimplemented but current planning permissions. All of those schemes were agreed to be viable with those sums secured. The Council has several large-scale future residential developments planned which will aim to deliver substantial quantities of further affordable housing in the District in the medium term future, utilising those additional affordable housing contributions as and when they are received.

1.9 Policy CP4 makes it clear that a requirement for a scheme to contribute towards the provision of affordable housing is subject to viability considerations and is therefore consistent with paragraph 124 of the Framework. The application of CP4, which includes this in-built viability allowance, cannot properly be said to be a barrier to delivery. Indeed between 1 October 2011 and 31 March 2022, 255 planning permissions were granted for minor residential developments which contribute a net dwelling gain. Of those only 18 have been permitted to lapse which is only 7.1% of all such schemes³.

² The sums payable secured by Sec 106 will be subject to indexation, in most cases from June 2011 which will not be calculable until the date of payment. The quoted upper limit includes a policy compliant contribution of £1,341,250.00 which relates to a minor development PP subject to a late stage viability review mechanism. The AHC, whilst capped at this figure, will only be known once viability is re-run at occupation when actual build costs and realised sales values are understood. The contribution paid could therefore be substantially less than the policy compliant sum referred to above, hence the range specified. Data is as of February 2023

³ The Needs Analyses (December 2019 and December 2020) referred to a lapse rate of 9% for minor developments; manual analysis has since demonstrated that a number of sites included in the 9% lapse figure have been subject to subsequent planning applications which were granted approval. Such sites have therefore still come forward for development despite earlier permissions lapsing. The lapse percentage in

- 1.10 Current evidence of housing need in the District is noted below at 2.4 to 2.11. It confirms that the needs underlying the adopted development plan policy remain pressing.

Importance of Small Sites to Three Rivers

- 1.11 It is important to acknowledge the percentage of residential development schemes which tend to come forward in the District which propose the delivery of less than 10 dwellings: from 1 April 2017 to 31 March 2022, 254 planning applications for residential development involving a net gain of dwellings were determined⁴ by the Council. Of these, 227 applications (89%) were for schemes which proposed a net gain of 1-9 units. Having a large number of small sites is an inevitable consequence of the District being contained within the Metropolitan Green Belt. The contribution to both market housing supply and affordable housing supply are therefore both material to the overall identified needs and adopted development plan objectives. This is dealt with in more detail below.
- 1.12 If the weight to be given to the Framework is greater than the adopted development plan, this large proportion of Three Rivers' expected new housing delivery will contribute nothing towards affordable housing. This would compromise Three Rivers' ability to deliver its objectively assessed need for affordable housing.

2 Development Plan Policies and the WMS

- 2.1 The content of the Framework is a material consideration in any planning decision, and one which the decision making authority must weigh against the development plan as the starting point under section 38(6) of the 2004 Planning and Compulsory Purchase Act. The correct approach is to:

- Consider the starting point under the development plan policies
- Have regard to the Framework and its objectives if those development plan policies would be breached – it is officers' view that the Framework should be given considerable weight as a statement of national policy post-dating the Core Strategy
- Consider up to date evidence on housing needs
- Consider whether the Framework should outweigh the weight to be given to the local evidence of affordable housing need and the breach of the adopted development plan policy.

- 2.2 This approach reflects the Court of Appeal's judgment in West Berkshire, which held that whilst the government, whether central or local, could state policy "rules" absolutely, decision makers must consider them without treating them as absolute: their discretion to weigh material considerations in the balance and do something different cannot be fettered by policy:

"the exercise of public discretionary power requires the decision maker to bring his mind to bear on every case; they cannot blindly follow a pre-existing policy without considering anything said to persuade him that the case in hand is an exception"

this Needs Analysis (January 2023) has therefore been revised to exclude application sites which are subject to later approvals which are either outstanding, under construction or complete.

⁴ Includes refused and approved applications. Excludes prior approval developments.

2.3 At paragraph 26 of the judgment, the court cited statements made to the High Court on behalf of the Secretary of State, describing those as being “no more than a conventional description of the law’s treatment of the Secretary of State’s policy in the decision making process”:

“As a matter of law the new national policy is only one of the matters which has to be considered under sec 70(2) and sec 38(6) when determining planning applications... in the determination of planning applications the effect of the new national policy is that although it would normally be inappropriate to require any affordable housing or social infrastructure contributions on sites below the threshold stated, local circumstances may justify lower (or no) thresholds as an exception to the national policy. It would then be a matter for the decision maker to decide how much weight to give to lower thresholds justified by local circumstances as compared with the new national policy”

As confirmed by the Court of Appeal decision in the West Berkshire case, whilst the WMS, and now the Framework, is clear with regard to the Government’s intentions on planning obligations in relation to small sites, the weight to attach to a development plan policy is a matter of discretion for the decision taker. Policies should not be applied rigidly or exclusively when material considerations may indicate an exception may be necessary.

In determining an appeal in Elmbridge, Surrey in August 2016 (appeal reference: APP/K3605/W/16/3146699) the Inspector found that “*whilst the WMS carries considerable weight, I do not consider it outweighs the development plan in this instance given the acute and substantial need for affordable housing in the Borough and the importance of delivering through small sites towards this.*” The existence of evidence of housing need is important in this context. That general principle has not been changed by the Revised NPPF.

2.4 Officers advise that whilst the Framework is a material consideration, breaches of Policy CP4 should not, in light of ongoing evidence of housing need in the Needs Analysis, be treated as outweighed by the Framework. This conclusion has been reached having had regard to the following relevant factors:

- **General House Price Affordability in Three Rivers**
- **Affordable Housing Supply Requirements in Three Rivers**
- **Affordable Housing Provision in Three Rivers**
- **Extent of residential development schemes proposed which are for sites delivering net gain of less than 10 dwellings**
- **The contribution towards the provision of affordable housing Policy CP4(e) has historically made in respect of small sites**
- **Relevant Appeal Decisions**
- **The fact that the adopted development plan policy does not impose burdens where they would render schemes unviable.**

General House Price Affordability in Three Rivers

2.5 Due to the District’s close proximity to London, Three Rivers has traditionally been situated within a high house price area. According to data published by the Office of National Statistics (ONS) in the third quarter of 2016⁵, the lowest quartile house price in Three Rivers in 2016, representing the cheapest properties in the District was £325,000.00, making it the **fifth**⁶ most

⁵ ONS (2022) *Dataset: House price to residence-based earnings ratio Table 6a*

<https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoresidencebasedearningslowerquartileandmedian>

⁶ Note that prior to the formation of the Buckinghamshire Council (now a unitary authority), Three Rivers was the seventh most expensive local authority area as two local authorities in Buckinghamshire ranked higher in lower quartile house price than Three Rivers in 2016 (South Bucks - £370,000.00; Chiltern - £335,000.00).

expensive local authority area in England and Wales (excluding London), out of a total of three hundred and three local authority areas (see table 1 below).

Number	Local Authority Name	Lowest Quartile House Prices (2016)
1	Elmbridge	£375,000.00
2	St Albans	£355,000.00
3	Windsor and Maidenhead	£340,000.00
4	Hertsmere	£330,000.00
5	Three Rivers	£325,000.00

Table 1.

Since the publication of the above ONS data in 2016, the general house price affordability position has grown worse. According to data published by the Office of National Statistics (ONS), the lowest quartile house price in Three Rivers in September 2021 was £385,000⁷. The lowest quartile house price of £385,000 places Three Rivers as the **seventh** most expensive local authority area in England and Wales (excluding London), out of a total of three hundred and three local authority areas (see table 2 below). Although Three Rivers' position has improved slightly, the lowest quartile house price has risen by £60,000 from 2016 to 2021, demonstrating an ongoing worsening affordability position.

Number	Local Authority Name	Lowest Quartile house Prices (2021)
1	Elmbridge	£445,000
2	St Albans	£425,000
3	Hertsmere	£411,175
4	Windsor and Maidenhead	£402,750
5	Mole Valley	£400,000
6	Epsom and Ewell	£391,000
7	Three Rivers	£385,000

Table 2.

Lowest quartile earnings in Three Rivers in 2016 were £24,518.00 and £27,003.00 in 2021⁸, 13.3 times worsening to 14.3 below the lowest quartile house prices (ratio of lower quartile house prices to lower quartile gross annual, residence based earnings⁹). In a mortgage market where lenders are traditionally willing to lend 4 times a person's income, clearly a lending requirement at over 14 times such an income means that most first time buyers are simply unable to purchase a dwelling in the District. Such a lending ratio would have required a first-time buyer in 2021 to have a deposit of £276,988.00, or (without such a deposit) to earn £108,012.00 per annum to get onto the lowest/cheapest rung of the property ladder. An additional Stamp Duty payment would also have been due (subject to COVID related temporary relaxation).

When one considers the median affordability ratio¹⁰ for Three Rivers compared to the rest of England and Wales, the position is even more serious: in 2016, the median quartile income

⁷ Office for National Statistics (2022) *Dataset: House price to residence-based earnings ratio Table 6a* <https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoresidencebasedearningslowerquartileandmedian>

⁸ Office for National Statistics (2022) *Dataset: House price to residence-based earnings ratio Table 6b* <https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoresidencebasedearningslowerquartileandmedian>

⁹ Office for National Statistics (2022) *Dataset: House price to residence-based earnings ratio Table 6c* <https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoresidencebasedearningslowerquartileandmedian>

¹⁰ Affordability ratio statistics are revised annually by the ONS to reflect revisions to the house price statistics and earnings data.

to median quartile house price affordability ratio¹¹ was 13.77, the fourth¹² worst affordability ratio in England and Wales (excluding London), as set out in table 3 below, again when compared against three hundred and three local authorities.

Number	Local Authority Name	Median quartile house price affordability ratio ⁸ (2016)
1	Hertsmere	14.23
2	Mole Valley	14.18
3	Elmbridge	13.86
4	Three Rivers	13.77

Table 3.

Over the period 2016 to 2021, the median quartile house affordability ratio in Three Rivers has worsened with a rise from 13.77 in 2016 to 14.25 in 2021 (see table 4 below). Whilst Three Rivers now maintains the fifth worst affordability ratio in England and Wales (excluding London), the median affordability ratio has worsened (by 0.48), demonstrating a lack of improvement in Three Rivers' affordability position nationally.

Number	Local Authority Name	Median quartile house price affordability ratio (2021)
1	Hertsmere	14.88
2	Epsom and Ewell	14.82
3	Elmbridge	14.78
4	Mole Valley	14.69
5	Three Rivers	14.25

Table 4.

Looking at the ratio of lower quartile house prices to lower quartile to gross annual, residence based earnings, in 2016 the ratio was 13.26. By September 2021 that had risen to 14.26, showing a worsening ratio over the period from 2016 to 2021¹³.

It is clear from the above that the affordability of housing in Three Rivers is getting worse with time.

Affordable Housing Requirements in Three Rivers

- 2.6 The Local Housing Needs Assessment (LNHA) (August 2020) is the most recent update to the South West Hertfordshire Strategic Housing Market Assessment January 2016 (SHMA) and estimates the need for affordable housing over the 2020-2036 period. The LNHA splits its analysis between affordable housing to rent and affordable housing to buy.

Affordable Housing Need - To Rent

¹¹ Office for National Statistics (2022) Dataset: House price to residence-based earnings ratio Table 5c <https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoresidencebasedearningslowerquartileandmedian>

¹² Note that prior to the formation of the Buckinghamshire Council (now a unitary authority), Three Rivers had the fifth worst affordability ratio most expensive local authority area as a local authority in Buckinghamshire ranked higher in median affordability ratio than Three Rivers in 2016 (Chiltern – 14.49).

¹³ Office for National Statistics (2022) Dataset: House price to residence-based earnings ratio Table 6c <https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoresidencebasedearningslowerquartileandmedian>

- 2.7 The South-West Hertfordshire Local Housing Needs Assessment (LHNA) (August 2020) found that at that time there were approximately 1,276 households within Three Rivers that were situated in unsuitable housing. Unsuitability is based on the numbers of homeless households and in temporary accommodation, households in overcrowded housing, concealed households and existing affordable housing tenants in need. 57% of these households are estimated to be unable to afford market housing without subsidy, which means the revised gross need is reduced to 727 households¹⁴.
- 2.8 In addition to needs arising from those in unsuitable housing, the LNHA also analyses affordable need to rent arising from newly-forming households within the District. The LNHA estimates 800 new households forming per annum in Three Rivers over the period 2020 to 2036. 45% of these newly-forming households are estimated to be unable to afford market housing (to rent) resulting in 360 new households with a need for affordable housing to rent each year over the period 2020 to 2036¹⁵.
- 2.9 The LNHA also considers newly arising need for affordable rent from existing households (i.e. households residing in market accommodation now requiring affordable housing). The LNHA estimates an additional 77 existing households falling into need for affordable rent per year over the period 2020 to 2036¹⁶.
- 2.10 Taking into account the figures of need noted above and the supply of affordable housing to rent through re-lets, the LNHA calculates the annual affordable housing need to rent over the period 2020 to 2036 as 350 in Three Rivers¹⁷. This need involves households who cannot afford anything in the market without subsidy and is equivalent to 55% of the District's total local housing need requirement calculated by the standard methodology. This indicates the substantial scale of need for this type of affordable housing.

Affordable Housing Need - To Buy

- 2.11 In addition, the LNHA estimates a need of 162 units for affordable home ownership per annum¹⁸ over the period 2020 to 2036, although this is a need which is formed by households identified as being able to afford to rent privately without subsidy.

Total Affordable Housing Need

- 2.12 Combining the need for affordable housing to rent and affordable housing to buy results in the calculation of 512 affordable units per year, equating to approximately 80% of Three Rivers' total local housing need requirement (as calculated by the standard method).

Affordable Housing Provision in Three Rivers

¹⁴ Table 33: Estimated Current Rented Affordable Housing Need, South West Hertfordshire Local Housing Needs Assessment (August 2020)

¹⁵ Table 34: Estimated Level of Rented Affordable Housing Need from Newly Forming Households (per annum 2020-2036), South West Hertfordshire Local Housing Needs Assessment (August 2020)

¹⁷ Table 37: Estimated Annual Level of Affordable/Social Rented Housing Need (2020-2036), South West Hertfordshire Local Housing Needs Assessment (August 2020)

¹⁸ Table 42: Estimated Annual Need for Affordable Home Ownership (2020-2036), South West Hertfordshire Local Housing Needs Assessment (August 2020)

- 2.13 Core Strategy CP4 requires around 45% of all new housing in the District to be affordable. As stated previously, prior to the WMS, all new developments that had a net gain of one or more dwellings would, subject to viability, be expected to contribute towards this.
- 2.14 Since the start of the plan period from 1 April 2001 to 31st March 2022 (the latest date where the most recent completion figures are available), 5,168 gross dwellings were completed. From this, 1,162 were secured as affordable housing, a total of 22.5%. This percentage is significantly below the Core Strategy target of 45% which means there was a shortfall of a further 1,162 or 22.5% affordable dwellings in order to fulfil the 45% affordable housing requirement up to 31 March 2022. This shortfall only exacerbates the already pressing need for small sites to contribute towards the provision of affordable housing.
- 2.15 In the latest monitoring period of 2021/22 (financial year), 22 sites¹⁹ delivered a net gain of one or more dwellings and would therefore be required to contribute to affordable housing under Policy CP4 (either through an on-site or off-site contribution). These were made up of three major developments (14%) and 19 minor developments (86%). 10 of the 22 schemes contributed to affordable housing provision whilst 12 of the 22 schemes did not contribute:
- Four out of the 22 sites provided viability justification, in line with CP4 policy, for the absence of affordable housing provision. One of the 22 sites was found to have suitable viability justification by the Planning Inspector at an Appeal.
 - One of the 22 sites was found to not have appropriately secured affordable housing contributions in breach of CS policy CP4. However there was no agreement between the parties in respect of the viable quantum of affordable housing and the Inspector nevertheless granted planning permission. This is the only appeal decision out of the 32 that have been determined since September 2017 where the Council's position on the relative weight to be afforded Policy CP4(e) was not fully upheld.
 - One of the applications completed during the monitoring period 2021/22 which did not contribute towards affordable housing had contributed towards on-site provision during the previous monitoring period 2020/21.
 - Five of the applications were determined during the 2014/15 and 2016/17 periods noted at 1.2 above (when the Council was dealing with applications on the basis that the WMS should be given overriding effect regardless of the viability position on specific schemes). Affordable housing provision was forgone on them on this basis, which is now reflected in the low affordable provision as they are built out.
 - Of the 10 schemes which did contribute, five made contributions via commuted sums towards off-site provision; all five schemes were minor developments, demonstrating the important role of small sites in collecting financial payments to be spent on affordable housing provision. Of the remaining five schemes which contributed via on-site provision in 2021/22, two were major developments and three were minor developments.

Extent of residential development schemes proposed which are for sites delivering a net gain of less than 10 dwellings

¹⁹ Sites with completions in the monitoring year 2021/22

2.16 In 2017/2018 (financial year), there were 67 planning applications determined²⁰ for net gain residential schemes, of which 57 were small site schemes (85%). In 2018/19 (financial year), there were 50 planning applications determined for net gain residential schemes, of which 46 were small site schemes (92%). In 2019/20 (financial year), there were 60 planning applications for net gain residential schemes determined, of which 55 were small sites schemes (92%). In 2020/21 (financial year), there were 38 planning applications for net gain residential schemes determined, of which 33 were small site schemes (87%). In 2021/22 (financial year), there were 39 planning applications for net gain residential schemes determined, of which 36 were small site schemes (92%). It is therefore clear that a high proportion of small site schemes have been proposed in the District, equating to 89% of applications over the past four financial years.

2.17 In terms of numbers of completed dwellings proposed by those small site schemes, between 2011-2022 (financial years) some 429 net dwellings were completed which equates to 39 net dwellings per annum and to 22.8% over the 2011-2022 period. 22.8% is a significant proportion of the overall supply. Whilst such numbers are significant, it is acknowledged that major developments, whilst far less frequent, provided significantly greater quantities of housing. However CP4(e) does not generally require small site schemes to provide on-site affordable housing (small-scale piecemeal development is unattractive to RP's). Instead commuted sums in lieu of on- site provision are required and thus it is the sums of money secured and the contribution those make towards the provision of additional much needed affordable housing in the District which the policy should be tested against. This has been acknowledged by Planning Inspectors on appeal, as referred to at paragraph 2.21 below: APP/P1940/W/19/3230999, 27 Gable Close, Abbots Langley: *"It also identifies the importance of small sites in providing affordable housing with contributions from small sites amounting to over £2.1 million since 2011 being spent towards the delivery of 38 affordable dwellings."*

Contributions towards the provision of affordable housing Policy CP4(e) has made in respect of small sites

2.18 As set out at paragraphs 1.7 and 1.8 above, the commuted payments (£2.9 million) spent on the provision of affordable housing which have been collected by the Council to date have made a direct contribution towards the identified affordable housing shortfall in the district: providing some 55 units of affordable housing. Furthermore, as set out at paragraph 1.8 above, small scale (1-9 unit) schemes have (as at February 2023) secured a further **£760,000.00 - £2million** (see footnote 2) in respect of unimplemented but current planning permissions. The Council continues to work with Registered Providers to deliver further affordable housing in the District in the medium term future, utilising those additional affordable housing contributions as and when they are received. It is clear therefore that CP4(e) has made and will continue to make a significant contribution towards the provision of much needed affordable housing in the District in the future.

Adopted development plan policy does not impose burdens where they would render schemes unviable

2.19 As set out at paragraph 1.9 above, Policy CP4 makes it clear that a requirement for a scheme to contribute towards the provision of affordable housing is subject to viability considerations and is therefore consistent with paragraph 124 of the Framework. The application of CP4, which includes this in-built viability allowance, cannot properly be said

²⁰ Includes refused and approved applications. Excludes prior approval developments.

to be a barrier to delivery. The Council accepts that if, properly tested, viability cannot be established on current day costs and values then a scheme should not currently be required to provide or contribute to affordable housing delivery. Between 1 October 2011 and 31 March 2022 there were 255 planning permissions granted for minor (net gain) residential developments in the District. Of those only 18 have lapsed (7.1%)²¹. This demonstrates that the application of CP4 has not acted as a brake on small scale residential developments.

Relevant Appeal Decisions

- 2.20 There have been a number of appeal decisions since the WMS was upheld by the High Court in May 2016. As an example, the Planning Inspectorate has dismissed appeals that were submitted against the decisions made by Elmbridge Borough Council (appeal no: 3146699), Reading Borough Council (appeal ref: 315661), South Cambridgeshire District Council (appeal ref: 3142834) and Islington Borough Council (3154751, 3164313, 3174582, 3177927 and 3182729). These were for small scale housing schemes where those Councils had attached greater weight to their affordable housing policy than to the WMS as a consequence of local evidence of substantial affordable housing need. Copies of these three appeals are attached to Appendix 1. The Council considers these appeal decisions to be of continuing relevance post the new Framework.
- 2.21 The Inspectors appointed to determine these appeals stated that the WMS needed to be addressed alongside existing Local Plan policy. Within each case, the Inspectors found that there was substantial evidence of a pressing need for affordable housing within these three local authority areas. On this basis, it was considered that local policy had significant weight and there was strong evidence to suggest that these issues would outweigh the WMS within these three cases.
- 2.22 In March 2017 the Planning Inspectorate issued a response to a letter from Richmond and Wandsworth Councils regarding the perceived inconsistency of approach by the inspectorate in relation to a further five appeal decisions made in 2016, regarding the weight that was made to the WMS. A copy of this letter is attached to Appendix 2.
- 2.23 Out of these five decisions, the Planning Inspectorate considered that three appeal decisions were reasonable, and fairly reflected the Court of Appeal's decision that although great weight should be attached to the WMS as a material circumstance; planning applications must be decided in accordance with the development plan, unless material considerations indicate otherwise.
- 2.24 However, the Planning Inspectorate considered that the decision taken on the two remaining appeals which stated that lesser weight was afforded to local policies because they were now, in part, inconsistent with national policy, was not appropriate. The seventh paragraph in the response from the Inspectorate, summarised the approach that the Inspectorate acknowledges should be taken:

“...an Inspector to start with the development plan and any evidence presented by the LPA supporting the need for an affordable housing contribution, establish whether the proposal is in conflict with those policies if no contribution is provided for, and, if there is conflict, only

²¹ See footnote 3.

then go on to address the weight to be attached to the WMS as a national policy that post-dates the development plan policies.”²²

2.25 It is clear therefore that the Planning Inspectorate considered that although the WMS (and now the Framework) was a material consideration, this should be balanced against the policies within a plan along with any further evidence that supports a Local Planning Authority’s application of the policy.

2.26 The Council’s stance has been tested on appeal on numerous occasions (32 decisions as at the date of this document) and the Planning Inspectorate have repeatedly concluded that whilst the NPPF carries considerable weight, it does not outweigh CP4 of the Councils development plan given the acute and substantial need for affordable housing in the District and the important contribution small sites make towards addressing this shortfall. Below are extracts from a few of those decisions:

- **APP/P1940/W/19/3222318, Eastbury Corner, 13 Eastbury Avenue, Northwood, Decision date: 21st June 2019:**

“The Council has however provided robust evidence to demonstrate high affordable housing need locally and that affordability in the District continues to deteriorate. Indeed, needs analysis carried out by the Council highlights the importance of small sites in addressing shortfall and the lack of affordability that exists in the District. I apply substantial weight to this local evidence due to its recentness and the clear conclusions that can be drawn from it. Policy CP4 makes it clear that site circumstances and financial viability will be taken into account when seeking affordable housing provision.”

- **APP/P1940/W/19/3221363, The Swallows, Shirley Road, Abbots Langley Decision date: 27th June 2019:**

“The Council has however provided robust evidence to demonstrate high affordable housing need locally and that affordability in the District continues to deteriorate. Indeed, needs analysis carried out by the Council highlights the importance of small sites in addressing shortfall and the lack of affordability that exists in the District. I apply substantial weight to this local evidence due to its recentness and the clear conclusions that can be drawn from it.”

- **APP/P1940/W/19/3225445, 6 Berkely Close, Abbots Langley Decision date 5th August 2019:**

“The Council has provided robust evidence of high affordable housing need in the District, and in line with the findings of other appeal decisions cited by the Council, I attribute substantial weight to that need as a consequence and consider that a contribution towards the provision of affordable housing is necessary.”

- **APP/P1940/W/19/3230999, 27 Gable Close, Abbots Langley Decision Date: 1st November 2019:**

“The Council has provided detailed evidence of acute affordable housing need locally: a Needs Analysis was undertaken in May 2016 after the publication of the Written Ministerial Statement which introduced the affordable housing thresholds now included in the Framework. Based on the Needs Analysis, the Council’s evidence highlights the issue of general house price affordability in the District, plus an exceptionally high need for affordable housing exacerbated by a significant shortfall in supply. It also identifies the importance of small sites in providing affordable housing with contributions from small sites amounting to over £2.1 million since 2011 being spent towards the delivery of 38 affordable dwellings.

A further Needs Analysis following publication of the revised Framework in July 2018 demonstrated that housing stress had increased since 2016. The Council has therefore revisited its position following the update to national policy. There is no

²² Paragraph 7, Planning Inspectorate Letter, March 2017.

evidence before me that affordable housing contributions are acting as a brake on development. Rather, the evidence is that contributions from small sites collected since the policy was adopted in 2011 are delivering affordable housing on the ground. Due to its recentness and the clear conclusions that can be drawn from it, I give this local evidence substantial weight. It underpins the approach in Policy CP4 as an exception to national policy.”

- **APP/P1940/W/19/3230911, 67 & 69 St Georges Drive, Carpenders Park, Decision date 22nd October 2019:**

“The Council has undertaken several needs analyses, the latest being July 2018, to demonstrate the acute shortage of affordable housing in the District, especially in light of high house prices and that much of the District is also constrained by the Metropolitan Green Belt. It further highlights the importance small sites make to the contribution to the overall provision of affordable housing. Up until the end of March 2017 there has only been 22.6% of affordable housing provision which falls short of the policy requirement of 45% The shortfall demonstrates that the provision of affordable housing is still very much needed, such that Policy CP4 should continue to apply to small sites, despite the Framework and the WMS. In light of the Council’s body of evidence that demonstrates the particular housing circumstances and needs of the District, I attach substantial weight to this local evidence and consider that the national policy position does not outweigh the development plan and Policy CP4 in this instance.”

- **APP/P1940/W/19/3230458, 19 Lynwood Heights, Rickmansworth, Decision date 11th October 2019:**

“The Council states that its Strategic Housing Market Assessment (2010) has demonstrated that there is a significant affordable housing need locally due to very high house prices and rents and a constricted supply of suitable housing sites. Further, the South West Hertfordshire Strategic Housing Market Assessment (2016) estimated a net affordable housing need of 14,191 in the District between 2013-36 and there is also a worsening situation with regards to affordability. Based on the Councils evidence the District is the 7th most expensive local authority area in England and Wales in 2016 and demonstrates that its application of Policy CP4 has delivered a significant contribution of over £2.1 million towards the delivery of affordable housing without disrupting the supply of small residential sites. Decisions should be made in accordance with the development plan unless material considerations indicate otherwise. The robust evidence referred to in footnote 1 and the clear need to deliver affordable housing in the District underpins the Council’s approach in Policy CP4 as an exception to national policy and therefore in this case, the Framework’s threshold would not outweigh the conflict with the development plan. I therefore attach considerable weight to Policy CP4. I am also referred to a number of recent appeal decisions in the District which support this approach and are therefore relevant to the scheme before me and as such carry considerable weight.”

- **APP/P1940/W/18/3213370: No.9 Lapwing Way, Abbots Langley.**

Decision Date 22nd May 2019:

“In considering whether provision should be made for affordable housing, there are two matters that need to be addressed. Firstly, whether in principle the provisions of Policy CP4 are outweighed by more recent Government policy. Secondly, if not, whether for reasons of financial viability a contribution is not required... There is no evidence before me that the application of Policy CP4 has put a brake on small windfall sites coming forward. Indeed, such sites have contributed over £2m to the affordable housing pot since 2011... Decisions should be made in accordance with the development plan unless material considerations indicate otherwise. There are very important factors in support of the continued application of Policy CP4. These factors are not unique to Three Rivers. Government policy does not suggest that areas where affordability is a particular issue should be treated differently. Nonetheless, although a weighty matter, the national policy threshold is not a material consideration which outweighs the conflict with the development plan in this case. In

making this policy judgment I have given considerable but not full weight to Policy CP4. I have also had regard to the other appeal decisions in the south-east referred to by the Council where Inspectors considered development plan policies seeking affordable housing against national policy. My approach is consistent with these decisions.”

- **APP/P1940/W/19/3219890: 4 Scots Hill, Croxley Green**

Decision Date 5th May 2019:

Whilst the appeal was allowed the Inspector considered that when “having regard to TRDCS Policy CP4 and the Council’s Affordable Housing Supplementary Planning Document 2011, I consider that a contribution towards the provision of affordable housing is necessary. A draft unilateral undertaking was submitted at appeal stage and was agreed by the Council.”

- **APP/1940/W/19/3229274: 101 Durrants Drive, Croxley Green**

Decision Date 16th August 2019:

“Planning law requires that applications for planning permission be determined in accordance with the development plan, unless material considerations indicate otherwise... Therefore, I find that the proposal would fail to make appropriate provision for affordable housing and as such, would be contrary to policy CP4 of the CS which seeks to secure such provision, which although does not attract full weight, in light of the evidence provided, attracts significant weight sufficient to outweigh paragraph 63 of the Framework.”

- **APP/P1940/W/19/3229038: 124 Greenfield Avenue**

Decision Date 10th December 2019

“Furthermore, windfall sites make up the majority of the proposals in a District which is constrained by the Green Belt and so delivery of affordable housing from these sites is crucial. The submitted evidence supports the proportion of housing proposals which have been on small sites in the last few years. There is no evidence before me that seeking affordable housing on small sites has precluded small windfall sites coming forward – indeed such sites have contributed a significant amount to the affordable housing pot since 2011... Overall, there is substantial evidence of considerable affordable housing need in the District and it has been demonstrated that small sites make an important contribution to affordable housing delivery in the Borough. I attach very significant weight to this consideration. Whilst the Framework is a material consideration of very considerable weight, based on the local circumstances of this case, in this instance the Framework does not outweigh the relevant development plan policy.”

- **APP/P1940/W/19/3238285: Bell Public House, 117 Primrose Hill, Kings Langley**
Decision Date 9th March 2020

“Even taking the appellants figures that 22.8% of affordable units have arisen from non major sites, I consider this to be an important and meaningful contribution...even taking the appellant’s figures my conclusion remains unaltered.”

- **APP/P1940/W/19/3229189: Glenwood, Harthall Lane, Kings Langley**

Decision Date 7th May 2020

“The Council’s evidence sets out the acute need for affordable housing in the area and the importance of small sites in contributing to the provision of such housing. They also highlighted a large number of recent appeal decisions for small residential schemes where it has been considered that the exceptional local need should outweigh government policy, as set out in the Framework... Despite the appellant’s evidence, which included reference to a Local Plan Consultation Document (October 2018) and an analysis undertaken by them based on the Council’s Housing Land Supply Update (December 2018), it was clear to me, in the light of all the evidence before me, that a pressing need for affordable housing in the area remains. It was also clear that small sites play a key role in ensuring this provision. As such, in this case, I am satisfied that although considerable weight should be given to the Framework, it does not outweigh the development plan policy.”

- APP/P1940/W/20/3249107: 2 Church Cottages, Old Uxbridge Road, West Hyde**
Decision Date: 21st October 2020

“The Framework at paragraph 63 sets out that the provision of affordable housing should not be sought for residential developments that are not major developments other than in designated rural areas where policies may set out a lower threshold of 5 units or fewer. That said, there is clear evidence to suggest that there is an acute need for affordable housing in the Three Rivers District and there have been several appeal decisions which supported this view... I agree that there are special circumstances which justify the provision of affordable housing below the Framework’s suggested threshold... As a result, the proposal would be contrary to Policy CP4 of the CS which amongst other matters seeks to increase the provision of affordable homes including by means of a commuted sum payment for sites of between one and nine dwellings... I have also had regard to the obvious benefits in relation to the provision of a much-needed new dwelling. However, the benefits of this are outweighed by the lack of provision for affordable housing”
- APP/P1940/W/20/3259397 24 Wyatts Road**
Decision Date 8th February 2021

“...I consider that the specific circumstances within this district together with the updated evidence to support Policy CP4 are sufficient, in this case, to outweigh the guidance of the Framework.”
- APP/P1940/W/20/3260602: 8-10 Claremont Crescent, Croxley Green**
Decision Date 18th February 2021

“The Council’s case is that Policy CP4 should continue to apply to all housing developments, notwithstanding its lack of consistency with the more recent Framework. In justifying this position, it has provided robust evidence of a high affordable housing need in the district as well as an independent viability assessment in relation to this appeal. Furthermore, a number of similar appeal decisions, cited by the Council, show that Inspectors have considered development plan policies with lower affordable housing thresholds to outweigh national policy given the local evidence of substantial affordable housing need. Whilst the Framework is a material consideration of very considerable weight, based on the local circumstances of this case, in this instance it does not outweigh the relevant development plan policy. In making this judgement, I have given considerable but not full weight to Policy CP4.”
- APP/P1940/W/20/3244533 2 Canterbury Way**
Decision Date 4th March 2021

“Over the plan period there have been times when the Council have applied Policy CP4 of the CS and times when they have not. I accept that this may have implications for the delivery of non-major sites, perhaps encouraging whether or not developers will bring forward proposals. However, it cannot be the only factor which influences whether or not such sites are brought forward. Furthermore, there is no substantive evidence to suggest that if Policy CP4 of the CS was not applied it would significantly increase the supply of housing in the district. Moreover, Policy CP4 of the CS was subject to an assessment of viability alongside all other requirements through the Local Plan process... Overall, on the basis of the evidence before me I am not convinced that the Council’s application of Policy CP4 of the CS is directly discouraging developers from bringing forward small sites due to the need to provide or contribute towards affordable housing or demonstrate that it viably cannot... housing affordability in the district is acute such that, based on the specific circumstances of this case and the evidence presented, I find on balance the proposal should make appropriate provision for affordable housing.”
- APP/P1940/W/20/3260554: Land adjacent to 2 Coles Farm**
Decision Date 15th June 2021

“The appellant’s comments regarding the importance of small sites is noted as is the Council’s lack of a five-year housing land supply. Despite this, the proposal is required to secure a contribution towards the provision of affordable housing, however, at the point of determination no executable undertaking is before me... The proposal would

be contrary to CS Policy CP4 and the Affordable Housing Supplementary Planning Document 2011 which require all new development resulting in a net gain of one or more dwellings to contribute to the provision of affordable housing.”

- **APP/P1940/W/21/3276715: Land adjacent to 62-84 & 99-121 Sycamore Road, Croxley Green Decision Date: 10th March 2022**

“Small housing sites have an important role in helping to deliver new housing in the district, including meeting a pressing need for affordable housing. For small housing sites of one to nine dwellings, paragraph e) of Policy CP4 of the CS allows for the possibility of commuted payments towards provision of off-site affordable housing. The Council indicates the indexation of such sums from a date of June 2011 to be the norm in most cases, to reflect the adoption date of the Three Rivers Affordable Housing Supplementary Planning Document (SPD), including its commuted payment formula, and so ensure that the contribution remains the same in real terms over time. Since the Council’s decision, a Planning Obligation by way of Unilateral Undertaking (UU) which proposes provision for affordable housing has been submitted by the appellant. The UU5 proposes an indexation date of 1st February 2022, and not 1st June 2011 as sought by the Council. As such, the UU does not make provision for adjustment of the affordable housing sum in proportion to any increase in the Retail Prices Index during the period of more than a decade since the adoption of the SPD. In this respect, I have no certainty that the proposed affordable housing contribution would be adequate to meet local need. I therefore conclude that the proposed development would not make adequate provision for affordable housing. As such, it would not accord with Policy CP4 of the CS which seeks to meet local need for more affordable housing in the district.”

- **APP/P1940/W/21/3277747: 3 Grove Cottages, Pimlico Decision Date: 16th March 2022**

“Policy CP4 of the Core Strategy addresses the provision of affordable housing and under it the Council has identified a requirement for a commuted affordable homes contribution of £58,650 to be paid. The appellant has indicated a willingness to make such a contribution. A draft Unilateral Undertaking (UU)3 submitted with the planning application includes an obligation intended to secure the making of an affordable housing contribution. I am content that there is a need for an affordable housing contribution to be made, with the Council having justified why such a contribution should be paid, even though the development would not be a ‘major’ one for the purposes of paragraph 64 of the Framework.”

- **APP/P1940/W/21/328373448: Altham Gardens, South Oxhey Decision Date: 29th April 2022**

“The latest statistics indicate that the Council has a shortage in its supply of housing land. Although the statistics do not specify affordable housing, the SPD indicates that there is a requirement for affordable housing in and around the Three Rivers Area and given the scale of the shortfall, it is reasonable to assume that it includes affordable housing. Given the policy requirement and the identified shortage of housing generally I am satisfied that the need for the contribution sought by the Council arises from the development and satisfies the three tests in Regulation 122(2) of the CIL Regulations 2010.”

- **APP/P1940/W/22/3291286: 27 Gable Close, Abbots Langley Decision Date: 30th August 2022**

“I am mindful that the Framework suggests that the provision of affordable housing should not be sought for residential developments that are not major developments other than in designated rural areas (where policies may set out a lower threshold of 5 units or fewer). However, the Council has provided clear and compelling evidence to demonstrate an acute need for affordable housing in the District, including reference to numerous other appeal decisions which have supported the Council’s case. There is no substantive evidence before me which would lead me to a different conclusion, including with regard to the primacy of the development plan. There would

therefore be an expectation that the appeal scheme would contribute financially towards the provision of affordable housing.”

- **APP/P1940/W/21/3284630: The Puffing Field, Windmill Hill**

Decision Date: 23rd September 2022

“The Council’s evidence sets out a robust case for an acute need for affordable housing in the area and the importance of small sites in contributing to the provision of such housing. On the evidence before me, I have no substantive reason to disagree with this position.”

- **APP/P1940/W/22/3291193: Rear of The Woodyard, Sarratt**

Decision Date: 27th October 2022

“The Council’s evidence sets out a robust case for an acute need for affordable housing in the area and the importance of small sites in contributing to the provision of such housing. The requirement for and the amount of the affordable housing contribution are detailed in the Council’s submissions.”

Conclusion

- 2.27 Planning applications must be determined in accordance with the development plan unless material considerations indicate otherwise. Having regard to the Framework as a material consideration of significant weight, officers' view is that the local evidence of affordable housing need continues to deserve significant weight in deciding whether, for the purposes of Section 38(6), the revised Framework policies weigh sufficiently against the Core Strategy Policy CP4. Having undertaken this assessment in 2017 and further reviewed it post the new NPPF in 2018, in December 2019, December 2020, February 2022 and February 2023 with regard to more up to date evidence, where available, officers are of the view that the Framework does not outweigh the weight to be attached to the local evidence of affordable housing need. That evidence shows that the need for affordable housing in Three Rivers is great and the contribution that small sites have made has been significant. Furthermore comparisons between 2016 and 2021 ONS data shows that the affordability of housing in Three Rivers is deteriorating year on year and the need for affordable housing is growing. As such proposals for the residential development of sites of 10 dwellings or less (not “major development”) will currently be expected to contribute towards the provision of affordable housing in accordance with Policy CP4 as a condition of grant. The Council will keep this evidence under review.
